EDITORIAL

Sunbrella® brings more than 60 years of expertise to the production of technical textiles and continues to combine performance and design to create sophisticated fabrics for indoor and outdoor use.

Our collections are inspired by the latest trends and include a wide range of textiles in lively colours and pastel hues, geometric patterns and refined solids.

DESIGN BUT NOT ONLY

Sunbrella® upholstery fabrics add beauty and personality to any indoor or outdoor space. They are woven exclusively with solution-dyed yarn for guaranteed colourfastness to UV rays. Their protective anti-stain finish makes them amazingly easy to clean.

SUNBRELLA® ACRYLIC YARNS

High-quality Sunbrella pigments penetrate deep into the yarn during production, when the acrylic is still in its liquid state. The result is «solution-dyed» Sunbrella yarn and a fabric with exceptional appearance-retention, resistance and colourfastness.

This fabric is impossible to compare with ordinary fabrics, which are simply surface-dyed by dipping the yarn or fabric.

SOLUTION
DYED ACRYLIC

YARN DYED

INCREDIBLY EASY TO MAINTAIN

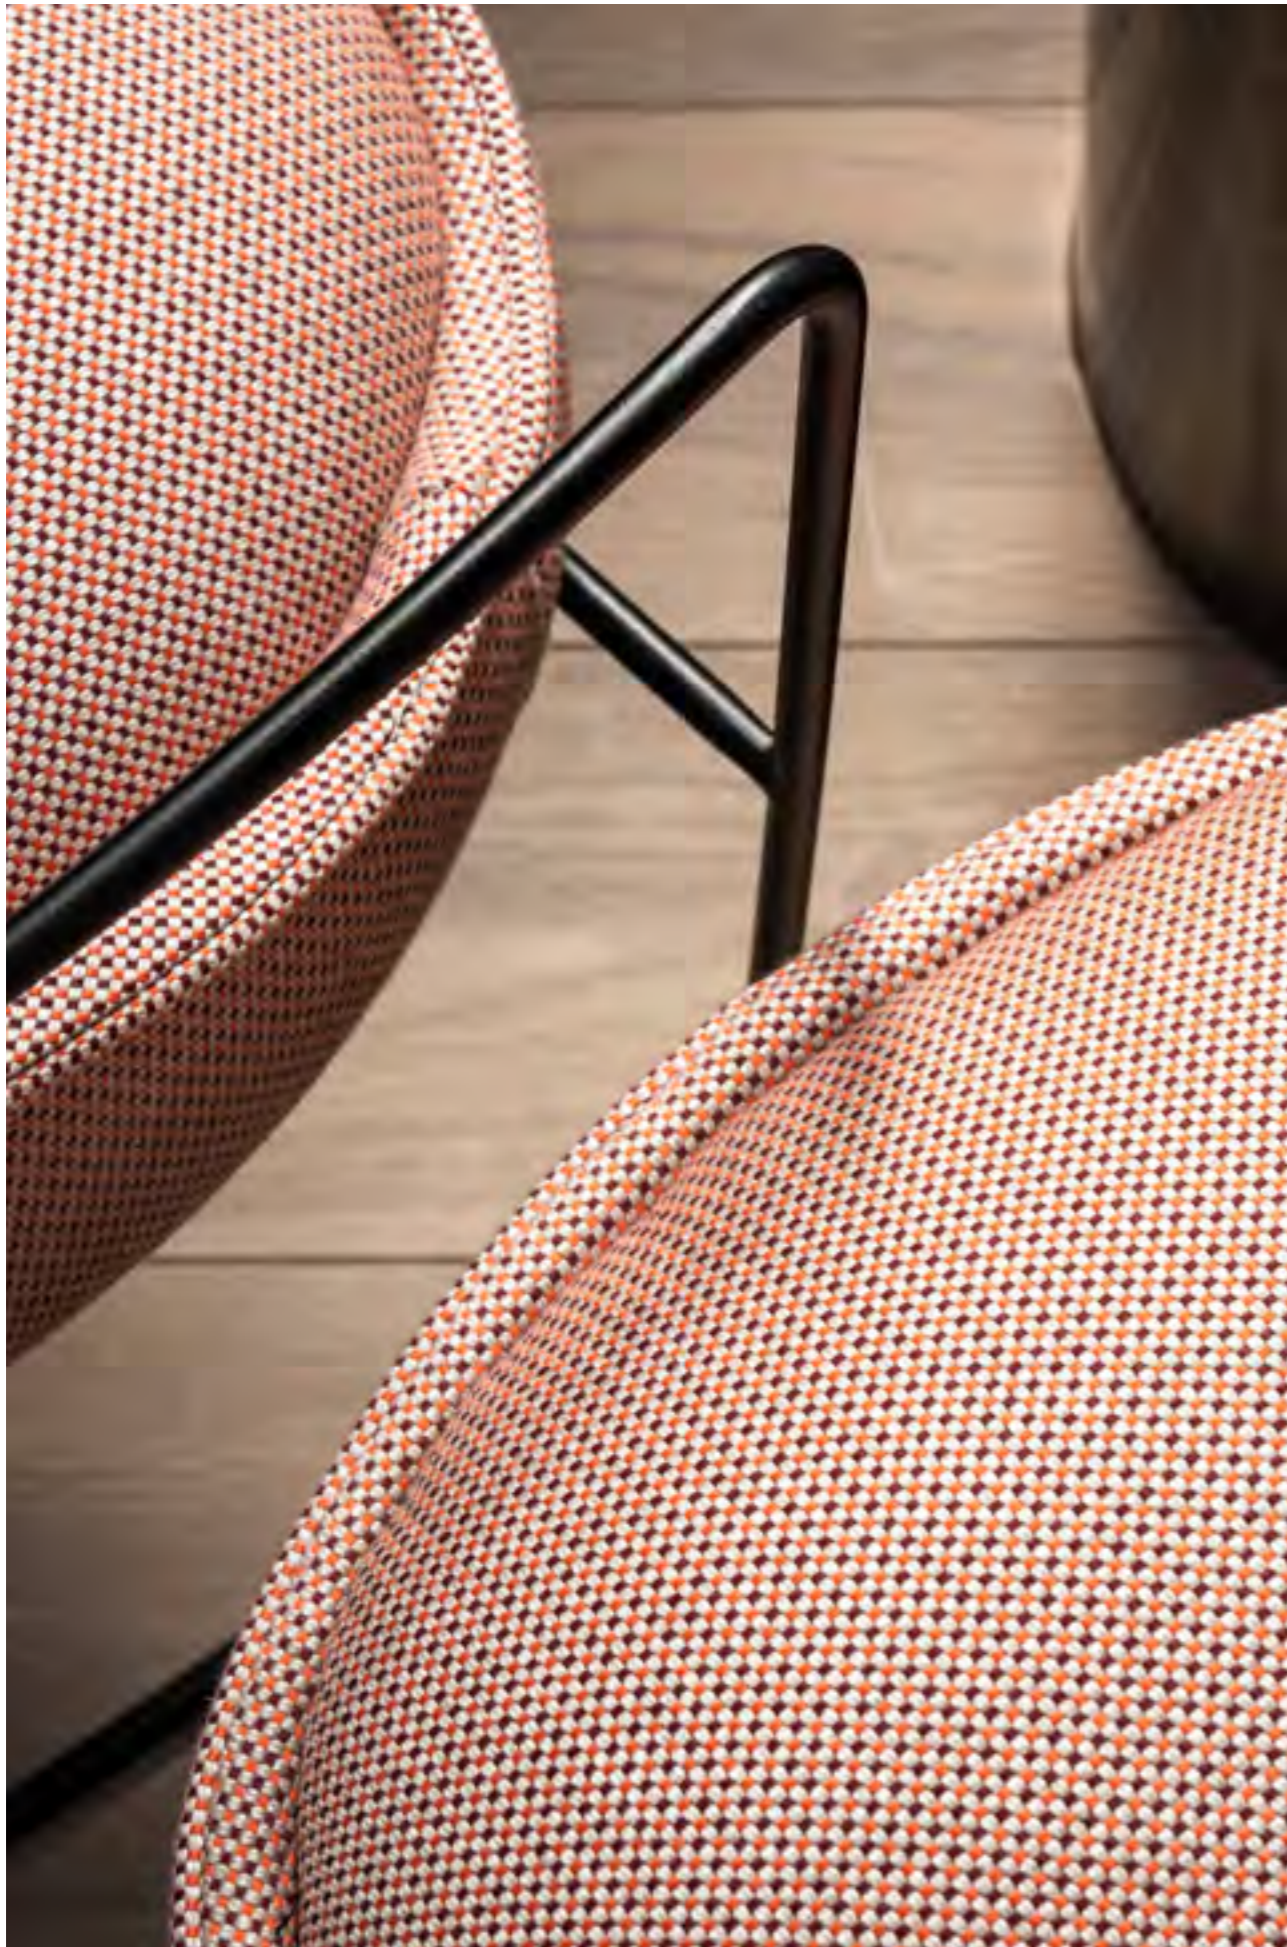

Life can deliver the unexpected, but it doesn't have to ruin your day...or your furniture. When you choose Sunbrella® performance fabrics you get complete performance—durable and stain resistant fabrics that are easy to clean.

When spills or messes happen, Sunbrella fabrics can be cleaned quickly and easily so you can get back to living comfortably and worry-free.

For other specific information
on stain cleaning see our Stain Chart:

 This upholstery fabric made of 50% virgin fibres and 50% recycled fibres reflects our commitment to the environment. Colourful fibre ends from the process of reusing the primary material may appear in the weave and vary the fabric colour from one batch to another. This creates a unique fabric with a natural look and vintage charm.

SUNBRELLA®

A BRAND THAT CARES ABOUT THE ENVIRONMENT

PRODUCT LIFECYCLE MANAGEMENT

As part of its Renaissance program, Sunbrella created the Heritage Renaissance line containing up to 50% recycled solution-dyed acrylic fibres. Recycled fibres are sourced directly from production plants where waste is divided into colour groups and turned back into fibres. These fibres are then blended with the "virgin" Sunbrella fibres.

LESS WASTE

Our quality Sunbrella fabrics do not rot or fade and are highly resistant over time. As our fabrics do not need to be replaced as often as traditional fabrics, they generate less waste.

LOW WATER CONSUMPTION

In the solution-dyeing process, colour pigments are added to the yarn as it is spun, to guarantee colourfastness and save water. The small amount of water used in our weaving process is fully recycled in-house.

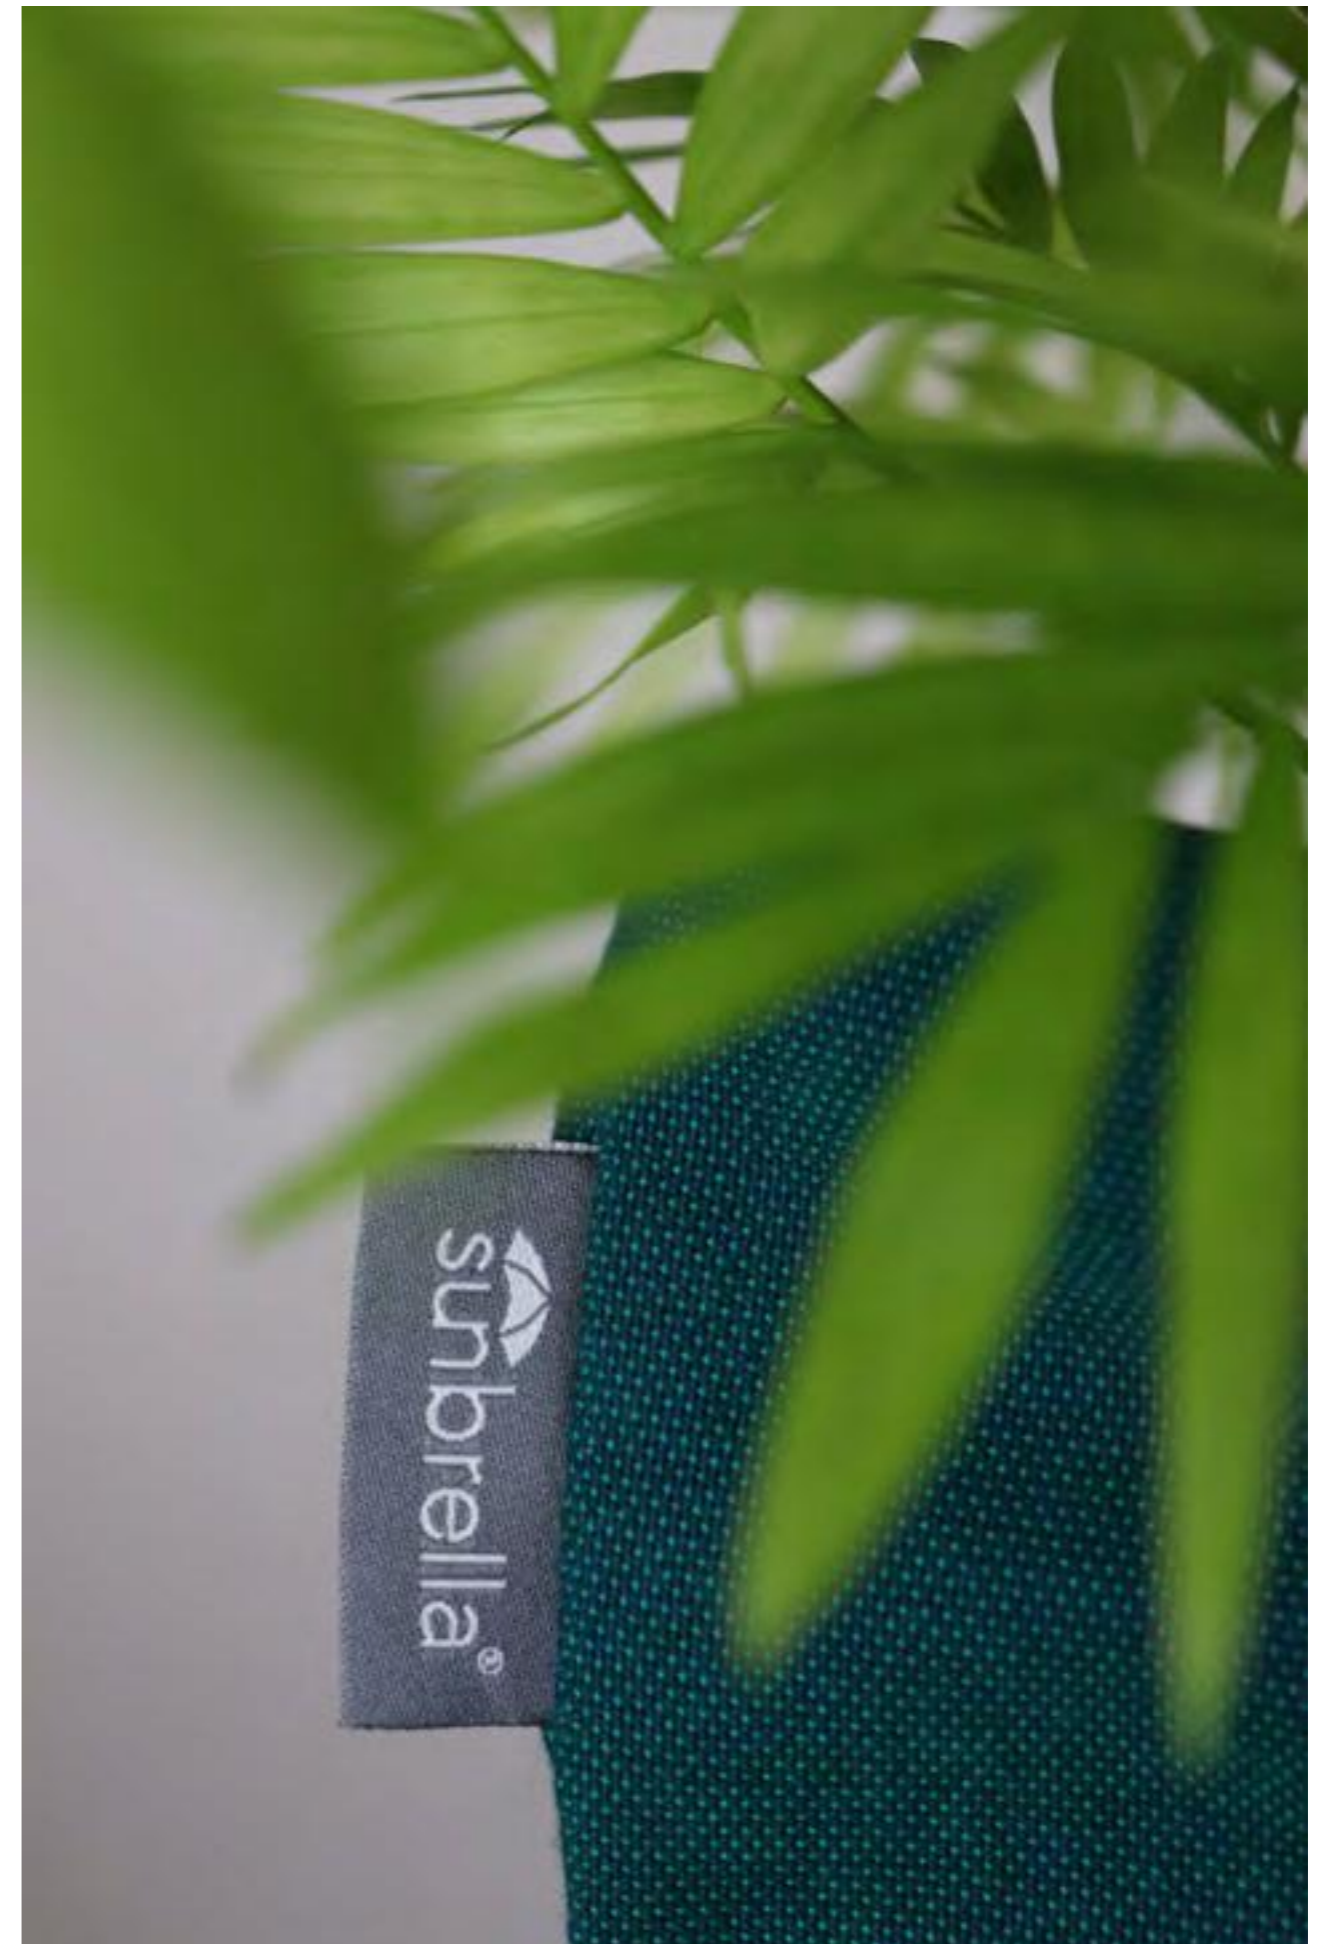

ZERO LANDFILL

For over 30 years, Sunbrella has recycled its industrial wastes such as yarn and packaging. Today, every Sunbrella manufacturing facility around the globe sends absolutely no waste to the landfill.

From production to use, Sunbrella fabrics combine **quality** with **durability** to reduce their impact on the environment.

[SUNBRELLA.COM/SUSTAINABILITY](https://www.sunbrella.com/sustainability)

CERTIFICATIONS

REACH REGULATION

Sunbrella® has developed treatments designed and applied in strict compliance with European REACH regulations.

REACH is a European regulation designed to improve the protection of human health and the environment from the risks posed by chemicals, while enhancing the competitiveness of the EU chemicals industry.

OEKO-TEX LABEL

A quality that meets human-ecological requirements. Awarded with the OEKO-TEX label (class II - products with direct contact to the skin), Sunbrella fabrics are produced without hazardous substances and do not pose a threat to health, the skin or the environment.

GREENGUARD CERTIFIED

Sunbrella upholstery fabric has achieved GREENGUARD GOLD Certification. Sunbrella upholstery fabrics are certified by GREENGUARD as contributing to healthy indoor air by being a very low emitting interior product.

QSEE CERTIFICATIONS (Quality-Safety-Environment-Energy) ISO 9001, ISO 14001, ISO 45001 and ISO 50001

As part of our continuous improvement approach, and to better meet the needs of customers, our company is certified to international standards by Bureau Veritas Certification. These standards guarantee the consistent quality of our products, protect the ecosystem, improve energy performance and enhance the efficiency of our QSEE system.

FLAME RETARDANT (NF EN 1021-1 – BS 5852 PART 1 – CALL 117 – NFPA 260)

Sunbrella upholstery fabrics comply with various safety standards for flammability of materials such as seat coverings and paddings.

SUNBRELLA® UPHOLSTERY FABRICS

We stand behind our fabrics with the most comprehensive warranty in the industry as the only performance fabric brand to guarantee against pilling and abrasion in addition to loss of colour and strength. Sunbrella is the only performance brand to guarantee* against:

- Loss of colour
- Loss of strength
- Abrasion
- Pilling

Ongoing process improvements have allowed Sunbrella to expand our warranty to include pilling and abrasion as of June 1, 2020.

*For more details, see the detailed 5-year guarantee document of 1 June 2020.
